# MobiSys2009

The 7th ACM/USENIX International Conference on Mobile Systems, Applications, and Services

June 22-25, 2009  
Kraków, Poland

<http://www.sigmobile.org/mobisys/2009/>

**Abstracts due:** November 26th, 2008

**Full papers due:** December 3rd, 2008

**Notification of acceptance:** March 2nd, 2009

## General Co-Chairs

Adam Wolisz,

*Technische Universität, Berlin, Germany*

Krzysztof Zieliński,

*AGH University of Science and Technology, Poland*

## Steering Committee Chair

Victor Bahl,

*Microsoft Research, USA*

## Program Committee Co-Chairs

Jason Flinn,

*University of Michigan, USA*

Anthony LaMarca,

*Intel Research Seattle, USA*

## Poster and Demo Chair

Rajesh Balan,

*Singapore Management University, Singapore*

## Workshop Chair

Wolfgang Kellerer,

*DoCoMo Communications Laboratories, Germany*

## Publicity Chair

Romit Roy Choudhry,

*Duke University, USA*

MobiSys 2009 seeks to present innovative and significant research on the design, implementation, usage, and evaluation of mobile computing and wireless systems, applications, and services. This conference builds on the success of the previous six MobiSys conferences. It is jointly sponsored by ACM SIGMOBILE and the USENIX Association.

Topics of interest include, but are not limited to:

- Design, implementation, and evaluation of mobile and wireless systems,
- Middleware and service architectures for mobile and wireless applications,
- Data management for mobile and wireless applications,
- Operating systems for resource-constrained mobile devices,
- Support for mobile social networking and mobile Web 2.0,
- Experience with sensor networks and systems,
- Infrastructure support for mobility,
- Security and privacy in mobile and wireless systems,
- User interfaces and usability issues for mobile and wireless applications,
- System-level energy management for mobile and wireless devices,
- Wearable and handheld devices in the context of system design,
- Personal-area networks and systems,
- Cyber foraging and resource discovery for mobile services,
- Systems for context sensing and context awareness,
- Tools and design methodologies for building mobile and wireless systems,
- Mobile computing support for pervasive computing,
- Experience with mobile and wireless systems.

*See you in Kraków!*
