

MobiSys2014

The Twelfth International Conference on Mobile Systems, Applications, and Services

June 16th-19th, 2014

Bretton Woods, NH, USA

<http://www.sigmobile.org/mobisys/2014/>

Call for papers

MobiSys 2014 will continue the tradition of publishing top-notch research papers dealing with all aspects of mobile systems.

MobiSys seeks original papers that take a broad systems perspective rather than focus narrowly on low-level components. Of particular interest are technical contributions that enable new and compelling mobile scenarios and applications. The conference values results and insights obtained from working implementations more highly than those obtained solely from simulations. If you have any questions regarding relevance or other submission-related issues, please contact the program chairs at mobisys-pcchairs14@umich.edu.

Topics of interest include, but are not limited to:

- Experience with mobile applications, networks and systems
- Innovative mobile and mobile sensing applications
- Tools for building and measuring mobile systems
- Wearable computing and innovative mobile devices
- Software architectures for mobile devices
- Data management for mobile applications
- Infrastructure support for node mobility
- System-level energy management for mobile devices
- Operating systems for mobile devices
- Support for mobile social networking and mobile Web
- Security and privacy in mobile systems
- Systems for location and context sensing and awareness
- Mobile computing support for pervasive computing
- Vehicular wireless systems
- User interfaces and usability for mobile applications and systems
- Personal-area networks and systems
- Cyber foraging and resource discovery for mobile systems

ACM has been making an effort to support more open access to the proceedings of its sponsored conferences. As a result, the MobiSys '14 proceedings will be publicly available through the conference website from approximately a month before the conference to a month after it.

ABSTRACT DUE

December 3, 2013

11:59:59 PM EST

PAPER DUE

December 10, 2013

11:59:59 PM EST

NOTIFICATION

March 4, 2014

General Co-chairs

Andrew Campbell (Dartmouth College)
David Kotz (Dartmouth College)

Technical Program Co-chairs

Landon Cox (Duke University)
Z. Morley Mao (U. of Michigan)

Local Arrangements Chair

Guanling Chen (UMass Lowell)

Treasurer

Jacob Sorber (Clemson University)

Posters/Demos Chair

Hong Lu (Intel)

Workshop Co-chair

Tristan Henderson (U. of St Andrews)
Xia Zhou (Dartmouth College)

Publication Chair

Andrés Molina-Markham (Dartmouth College)

Publicity Chair

Minkyong Kim (IBM Research)

Steering Committee Chair

Victor Bahl (Microsoft Research)

Transportation Chair

Tim Pierson (Dartmouth College)

Web Chair

Jing Xu (UMass Lowell)
